-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 28 July 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Formal matters***

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1649.

### ***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 28, 2005 has been entered.

### ***Response to Amendment***

3. Claims 1-2, 6 and 10-13 have been amended as requested in the amendment filed on July 28, 2005. Following the amendment, claims 1-7 and 9-15 are pending in the instant application.

Claims 1-7 and 9-15 are under examination in the instant office action.

4. The Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Any objection or rejection of record, which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

Art Unit: 1649

6. Applicant's arguments filed on July 28, 2005 have been fully considered but they are not deemed to be persuasive for the reasons set forth below.

***Double Patenting***

7. Claims 1, 3-4, 6, 9 and 11-12 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S. Patent No. 6,319,893 ('893 Patent) for reasons of record in previous office communications.

Specifically, claims 1, 3-4, 6, 9 and 11-12 are directed to a method of treating anxiety by administration of inhibitors of DP IV. Claims 1-4 of the '893 Patent are directed to a method of raising blood sugar level (treating hypoglycemia) by administration of inhibitors of DP IV. One skilled in the art readily appreciates the close relationship between interdependent physiological processes such hypoglycemia, stress and anxiety. See, for example, US Patent 4,024,250 explaining that anxiety is one of the components of physiological response to low blood glucose condition (column 2). Because '893 patent discloses treatment of low blood sugar by administration of inhibitors of DP IV, anxiety syndrome associated with low blood sugar is inherently treated (see reasoning of record in the previous office communications).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1649

8. Claims 2, 7, 10 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
9. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: recitation of intended goal of the method is not present; see “for the treatment of”. Clarification or appropriate action is required.
10. Claims 7, 10 and 14 are indefinite for being dependent from indefinite claims.

### ***Conclusion***

11. Claims 1-4, 6, 7, 9-12 and 14 are rejected. Claims 5, 13 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
